A scenic landscape featuring a winding asphalt road that curves through rolling hills. The hills are covered in dry, golden-brown grass and some sparse green shrubs. In the background, a large, flat-topped hill or mesa rises against a clear, light blue sky. The road has white lane markings and a guardrail on the left side in the foreground. The overall atmosphere is peaceful and open.

PERSPECTIVES

WHAT HAVE WE ACHIEVED?

ETHICS

Little: limited life expectancy/ competitive jobs/ participation community life

PUBLIC HEALTH

Little, Insufficient focus, underestimation of importance

RECOVERY

Hope: Paradigm shift, risk of window dressing

EFFECTIVENESS

Hope: Start of paradigm shift in research, risk of divided camps

NETWORK

A lot: models for organisation of community mental health care (F-ACT, CRHT, EIS, Resource groups, DD), Little: connection beyond MHC

PEER EXPERTISE

Hope: Third domain of expertise, few peer experts, even less other open professionals

A wide-angle photograph of a paved road that winds through a vast, hilly landscape. The terrain is covered in dry, golden-brown grass and shrubs, with rolling hills in the background. The sky is a pale, clear blue. The road starts in the foreground, curves to the right, and then continues to wind through the hills, disappearing into the distance. The text 'WE HAVE A LONG JOURNEY OF HOPE TO GO' is overlaid in the center of the image. 'HOPE' is in a large, bold, white sans-serif font, while the other words are in a smaller, white sans-serif font.
